Step 5

Feed the wool through the roll leaving a nice long piece to hold on to and tighten as you go

Step 6

Wind the wool around each stick; make sure you keep going in the same direction

Step 7

Continue until you have 2 loops on each stick. Give the end of the wool a little tug to keep in tight

Step 8

Pass the bottom loop over the top loop on each stick. Keep on adding rows and it won't belong before you see your knitting appear at the bottom of the roll

Step 9

Once you are happy with the length you are ready to cast off

Step 10

Take the loop from one stick and pop it over the next one. Then pass the bottom loop over the top

Step 11

Continue the pattern until you are left with one loop on the final stick

Step 12

Finally, cut your wool and tie off the final loop using a little knot to keep it secure. You are now ready to create.

Don't forget to post pictures of your knitting – maybe a bracelet or necklace for Mum or Nana. Buttons make great additions and are easy to add to the ends
